

JOHN JOSEFDeveloper
Consultantjohn@johnjosef.comwww.johnjosef.com**PROFILE**

John Josef has over 12 years of experience in the design, development, programming, implementation, and marketing of websites and web applications. He is very interested in new and emerging technologies on the internet and his involvement in them. He has a knack for contemporary art. His friends and colleagues tell him he has a keen eye. John enjoys technical challenges and believes that his experience and expertise are capable of overcoming any obstacle. He has been involved in a broad set of company environments including offsite support to clients / customers, start-up companies with his ownership, established companies, freelance development, and consulting. John is prepared to work in any of these company environments.

SKILLS

LAMP Development (Linux, Apache, MySQL, PHP), Nginx, Cloud Computing, CSS, XHTML, XML, Javascript, W3C Standards, eCommerce, Point of Sale Systems, Web 2.0 APIs and Frameworks (such as Google, Yahoo, and Flickr REST services as examples), Flash, Actionscript, OOP, C/C++/C#, Ruby, Java, Python, MVC Frameworks (Such as Codeigniter, Drupal, Zend Framework, Django, Ruby on Rails, and CakePHP), WordPress Plugins and Design, Adobe Photoshop, Adobe Illustrator, Adobe Imageready, Mac, Linux, Windows, Server administration, Technical development/planning/writing, Database architecture, SEO Consultation, Security, Hardware.

EXPERIENCE**SR DEVELOPER, SOURCEBITS — 2011-PRESENT**

Duties at Sourcebits consist of: development for user experience and backend functionality, analysis and review of code, management of team members, and working directly with large clients such as VMWare and Proctor & Gamble. At Sourcebits I deal with co-workers and clients on a global scale.

CTO BIDNERD.COM — 2009-2011

BidNerd LLC (<http://www.bidnerd.com>) is a start up company founded in 2008. During the later half of 2009 John was brought on as the CTO and provided the entire range of services required to run an enterprise website by himself. From server administration, to back-end development, to graphic design and internet marketing/SEO John performed all services required to operate the internet-based company. John has worked on building his own data and javascript REST API for internal use. BidNerd and John have continued to strive towards success in a competitive market.

DEVELOPER, BONNIER CORPORATION — 2010 CONTRACT

John worked at Bonnier for a number of months on the Drupal-based website suite "SkiNet" (<http://www.skinet.com>). This was a group of websites featuring editorial and user-contributed content based on nationally and internationally published magazines. John's tasks included updating old modules, fixing bugs, and developing completely new modules for use in the company infrastructure.

SELF EMPLOYED, INTERNET DEVELOPER/CONSULTANT — 2008-PRESENT

Working with clients around the world. Primary focus on rich content websites that utilize all of the web 2.0 best practices. Main Partners: Devise Studio, Brahn Communications, Creative Logic Media, Dope Development, Broadcast Vision Entertainment.

SR. WEB DEVELOPER/INTERNET MANAGER, CREATE COMMUNICATIONS — 2007-2008

Managed and developed a number of web sites, web servers, databases, and applications. Built a custom framework, created graphics, consulted with colleagues, built applications and entire websites from initial concept through operational execution for company use both internally and externally. These included security features and firewall protection schemes as well. (For screen captures of these sites and admin panels please contact me)

<http://www.createmagazine.com>
<http://www.thecreateawards.com>

- Create Communications was purchased by Jupiter Media on May 22nd 2008 ** Note that one of the main reasons for Jupiter Media's acquisition was the Create Magazine website content.

WEB DEVELOPER, THIRTY SIX SQUARES — 2005-2006

Developed and managed a number of websites for thirtysixsquares.com. Developed a number of administrative and content delivery systems for their clients.

PRESIDENT/FOUNDER, GLASS HAT SOFTWARE INC — 2004-2006

Incorporated Glass Hat Software Inc in Orlando FL as a co-owner. Provided services to a multitude of clients across the globe including, but not limited to: web design, application development, animation, illustration, graphic design, business branding, marketing, video game design and development. Initial start-up company was a learning experience that was initiated in college with another motivated colleague. Although the company was profitable, a collective decision was made by each owner to close the business and pursue their own endeavors.

FREELANCE DEVELOPMENT — 2000-2004

During these years (through high school and beginning college) John varied in his work types. He worked for an independent video game studio and acted as the client/server/web designer and programmer for an independent MMORPG. He worked as a freelance web design and developer for Mandarax Web Development as well during this time.

EDUCATION

University of Central Florida — Computer Science Study, 2003-2006 (did not finish)
